12.1. Step 1:	34
12.2. Step 2:	34
12.3. Step 3:	35

Chapter 1. PART 0. Introduction

The overall service performance of the WMO Information System 2.0 (WIS2) relies on the operational quality of all Global Services. The WIS2 monitoring procedure was launched in April 2025, succeeding the WIS1 Watch, which had been active from 2017 through 2024. This Guide was first developed in 2020 to standardize the procedures for GISC Watch operation in accordance with the Resolution 57 (Cg-18) and the feedbacks from GISC based on their experience of the WISC Watch practice. This 2025 edition aims at adapting the procedures to WIS2. It is intended to assist GISCs in fulfilling their GISC Watch responsibilities.

This guide presents the procedures to be used:

1. Procedures for Take over
2. Procedures for Monitoring
3. Procedures for Issue Management
4. Procedures for Hand over
5. Procedure for Escalation

Chapter 2. PART I. Procedures for Take over

Procedure to use when a GISC starts its GISC watch period:

(a). Take over the GISC Watch duty according to the agreed roster.

The GISC Watch roster is available here: https://community.wmo.int/en/activity-areas/wis/gisc_watch

(b). Handover acknowledgement

- Accept the hand-over-report from previous GISC
- Send an acknowledgement to confirm receipt.

Note: To ensure the continuity of GISC Watch, the incoming GISC must begin monitoring duties at the start of its roster period even if the handover email/report has not yet been received.

Sample takeover email:

```
From: GISC Beijing  
To: GISC Toulouse  
Cc: gisc-ops@groups.wmo.int,wis@wmo.int  
Subject: GISC WATCH Takeover (16-30 April) confirmed: GISC Watch Report 01-15  
April 2025
```

```
Dear GISC Toulouse,  
Thank you for your efforts and the handover report.  
GISC Beijing will take over the duty from April 16th to 30th 2025.  
Best regards,  
GISC Beijing
```

(c). Review open tickets

At the beginning of its monitoring period, review any open tickets from the previous period.

Chapter 3. PART II.Procedures for Monitor

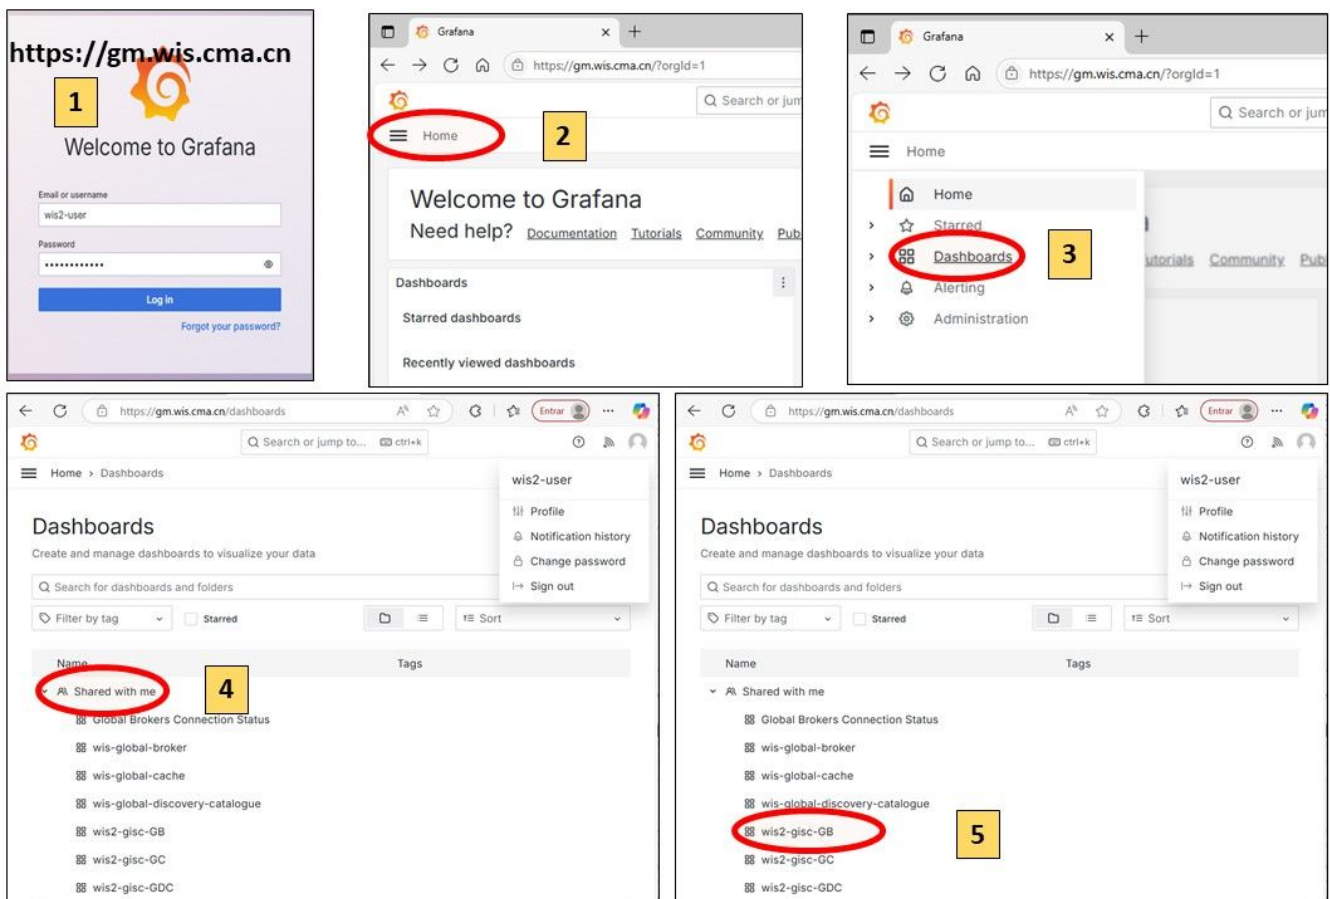

Procedure to use by the GISC on duty during the monitoring period.

Basic Principles:

1. The GISC Watch's goal is focusing on the Global Services level (Global Broker, Global Cache, Global Discovery Catalogue, Global Monitoring).
2. Issues regarding data coming from WIS2Nodes are managed by GISCs according to their AoR (Area of Responsibility). The GISC Watch can pinpoint issues to the GISCs, but this is not mandatory.
3. A large part of the monitoring activity is already performed on the Global Monitoring level, with JIRA tickets to be automatically initiated.

The following table shall be filled in, by checking Global Monitoring metrics (see detailed information how to get the figures after the table):

For GM-China Dashboard:

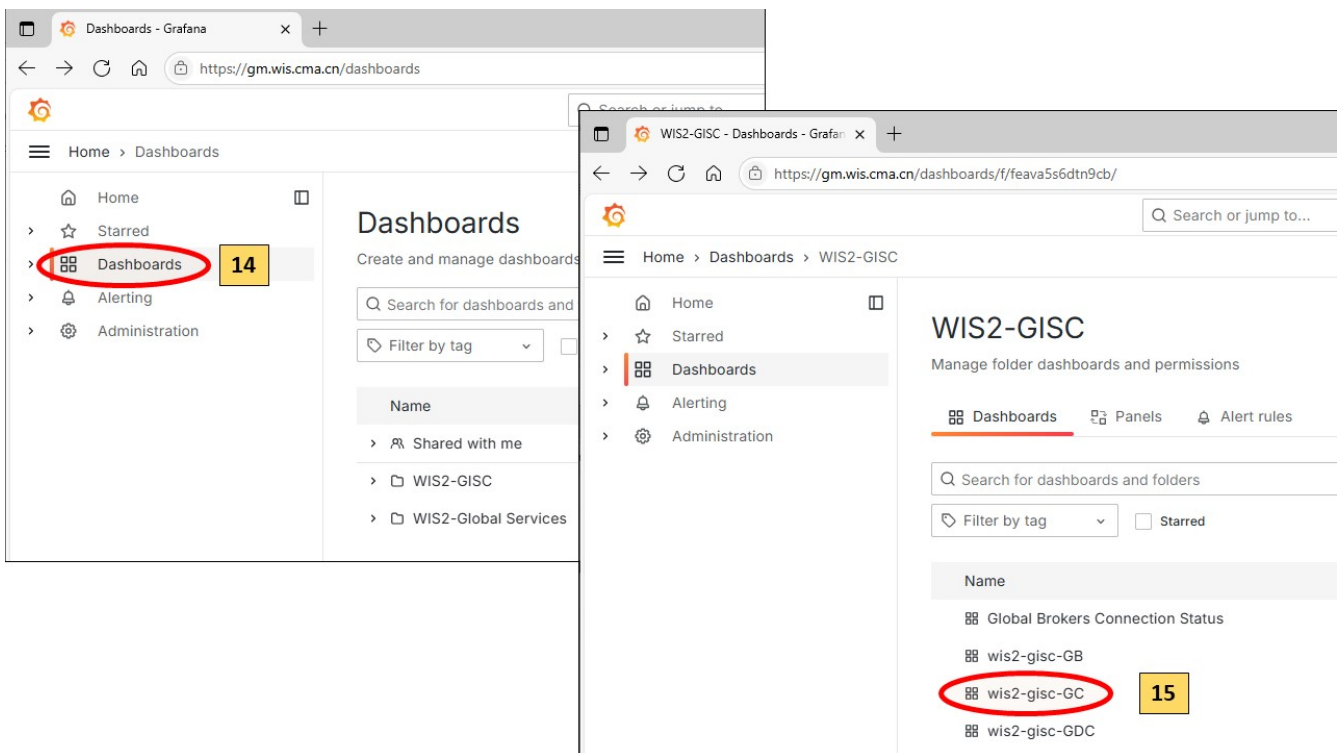

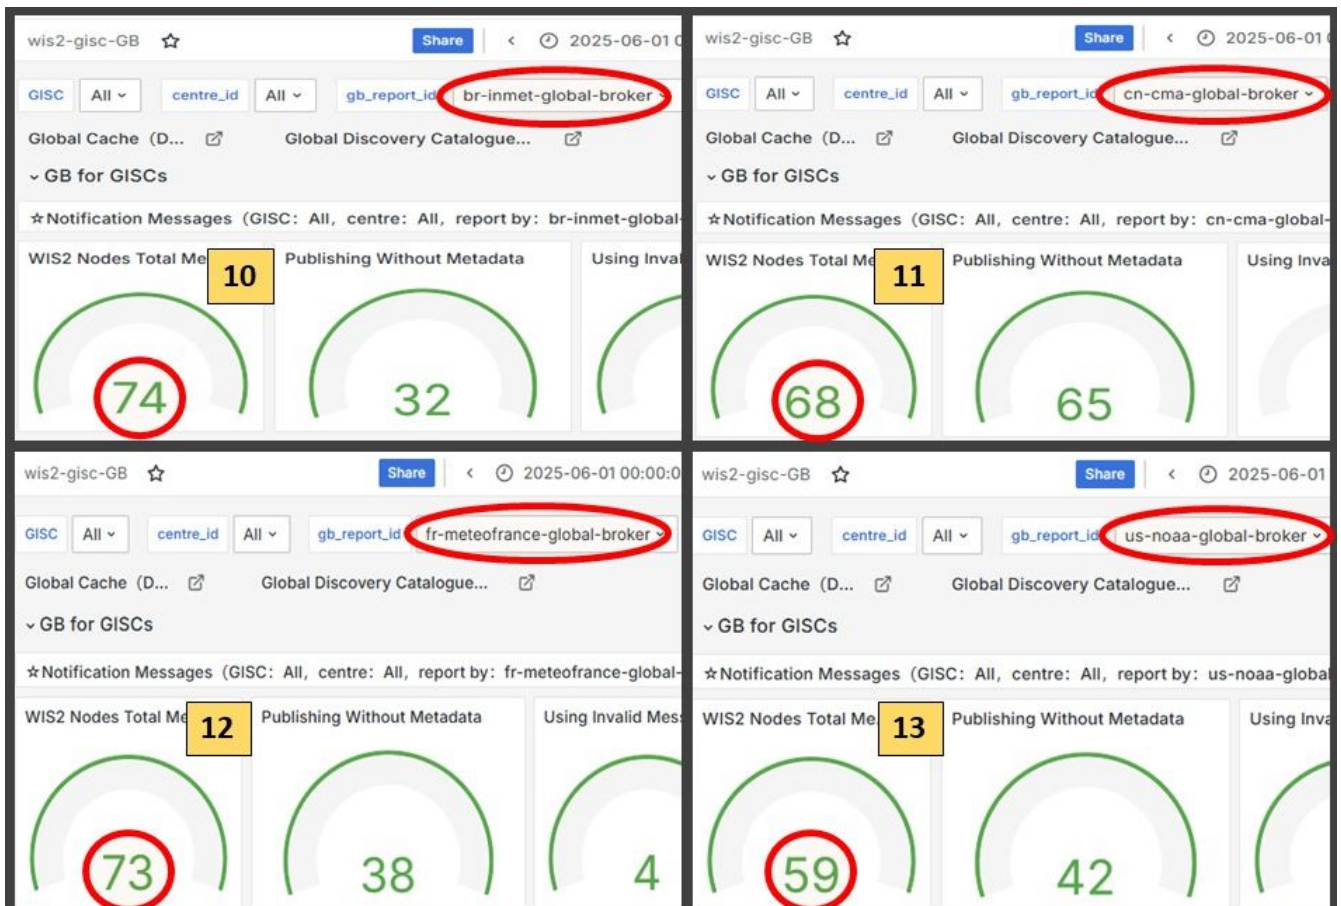

The screenshot shows the WIS2-GISC dashboard with the following elements:

- Calendar Pop-up:** A calendar for June 2025 is displayed. The date '1' is highlighted with a red circle and labeled '1'.
- Time Range Selection:** The 'Absolute time range' section shows 'From' and 'To' dates set to '2025-06-01 00:00:00' and '2025-06-01 23:59:59' respectively. The 'Apply time range' button is circled in red and labeled '8'.
- Search Bar:** A search bar on the right side of the dashboard shows 'Last 6 hours GMT' and is labeled '6'.
- Dashboard Metrics:** The dashboard displays several metrics, including 'WIS2 Nodes Total Messages' (74) and 'Publishing Without Metadata' (66).

The screenshot shows the WIS2-GISC dashboard with the following elements:

- Variable Selection:** A dropdown menu is open for the 'gb_report_id' filter. The dropdown is labeled '9'. The options listed are:
 - br-inmet-global-broker
 - cn-cma-global-broker
 - fr-meteofrance-global-broker
 - us-noaa-global-broker
- Dashboard Metrics:** The dashboard displays several metrics, including 'WIS2 Nodes Total Messages' (73), 'Publishing Without Metadata' (38), 'Invalid Message For...' (4), 'Using Invalid Mess...' (2), and 'Silent (no msg over...' (1).

How to fetch data from the dashboards:

3.1. Global brokers data

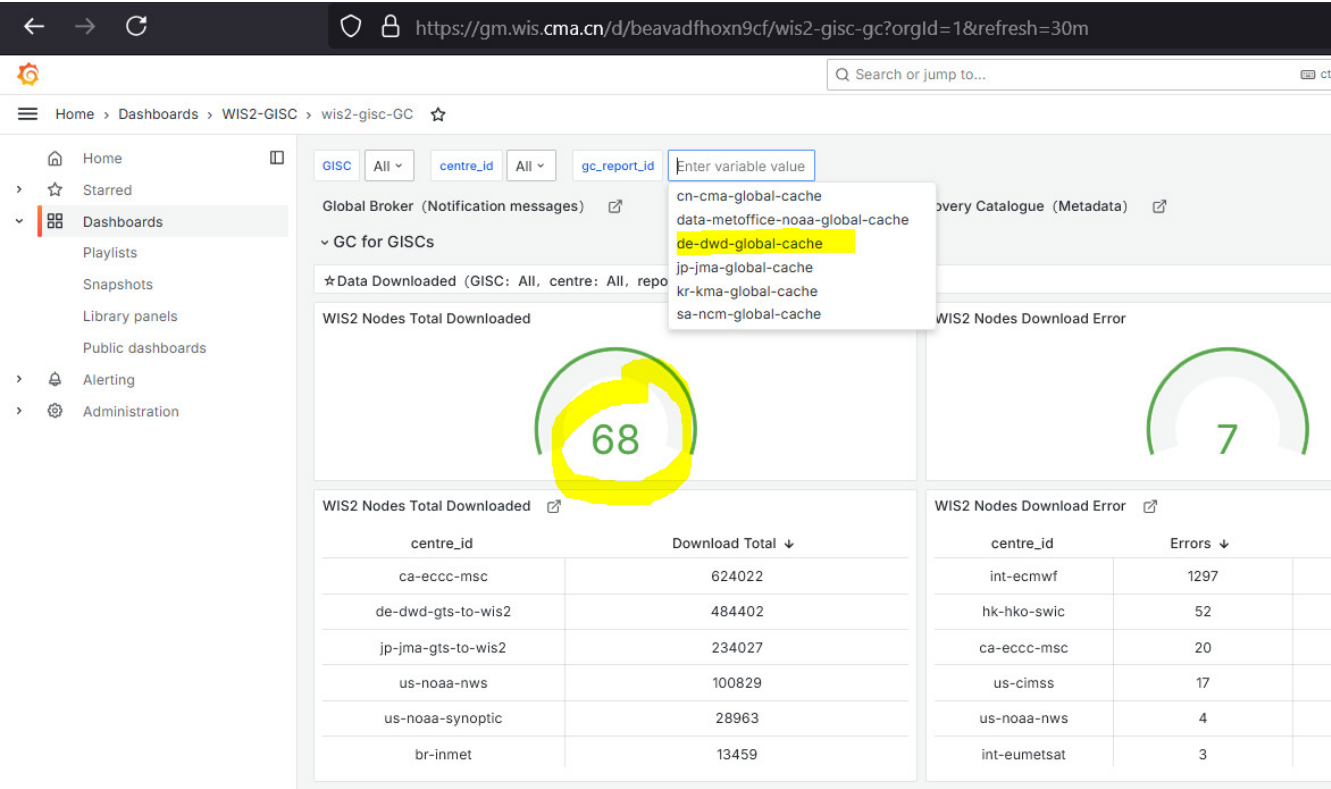

3.2. Global caches data

Log in as gisc_user

Click on Dashboards, then wis2-gisc-GC

Select GC and read value

Check has to be performed at roster start and roster end. Additional dates can also be added.

Chapter 4. PART III. Procedures for Issues Management

The WIS2 ticketing system is provided and operated by WMO : <https://jira.wmo.int>.

Chapter 5. Tickets review guideline

The GISC in charge needs to review the tickets with the following guidelines:

(1) Review frequency

- At least once or twice a week.

(2) Key focus

- Focus on “stalled” ticket”: send reminder for tickets inactive for more than 2 weeks

(3) Automatic ticket creation

- Most tickets are expected to be created automatically by the GISC Monitoring system

Chapter 6. Procedure to review Jira Tickets for the GISC Watch:

(1) Access the JIRA system:

- Access portal: <https://jira.wmo.int>
- Guide to how to login JIRA and reset password as an external user: https://wmoomm.sharepoint.com/:b:/s/wmocpdb/EddUVYxXoRhIsAMp5yBmFicBz24ARqhDs_YEpidVd5oQ7g?e=7e2CmO
- JIRA accounts: There are two types of JIRA accounts:
 - WIS2-IMS-Operator, one account per GISC, associated with a general email address.
 - WIS2-IMS-Experts, one or more accounts per GISC. This group is intended for technical experts involved for resolving the tickets.

If there are any changes or updates to the JIRA accounts for your GISC, please inform the WMO Secretariat so that the necessary updates can be made to ensure continued access.

(2) Select the correct project

- Choose Project "WIS2 IMS"

The image is a composite of four screenshots illustrating the steps to access Jira and select a project:

- Step 1:** A browser window showing the URL <https://jira.wmo.int> in the address bar.
- Step 2:** The Jira login page with fields for email address and password, and a 'Sign in' button.
- Step 3:** The 'Boards' page in Jira, showing a table of boards. The 'Projects' dropdown menu is open, and 'WIS2 IMS (WI)' is selected.
- Step 4:** A close-up of the 'Projects' dropdown menu, showing 'WIS2 IMS (WI)' as the selected project.

Board name	Board type	Administrators	Saved Filter	Visibility
Backlog_Tickets	Scrum	Ms Samantha LINNERTS	Filter for Backlog_Tickets	RESTRICTED
GISC Seoul	Kanban	Xiaoxia Chen	Filter for GISC Seoul	RESTRICTED
GISC-Exeter	Kanban	GISC-Exeter Expert2 WIS2-IMS-Experts	Filter for GISC-Exeter	RESTRICTED
GISC-Offenbach	Kanban	Xiaoxia Chen	Filter for GISC-Offenbach	RESTRICTED

(3) Filter tickets

- "Issues" → "View all issues and tickets" (upper right) → Filter "Status" by unchoosing "Done"

Workflow of the tickets can be found here: <https://wmoomm.sharepoint.com/:w:/s/wmocpdb/EXmYNLQKs59AlHToO9rH6YAB3xoVjdqeoD2fkC-4h4aPjA?e=XqmxpR>

(4) Ticket Handling

- Review ticket list and send reminders (inside tickets) for tickets inactive for more than 2 weeks.
- Assign tickets to relevant Assignees for the tickets with status “TRIAGE” (new tickets)

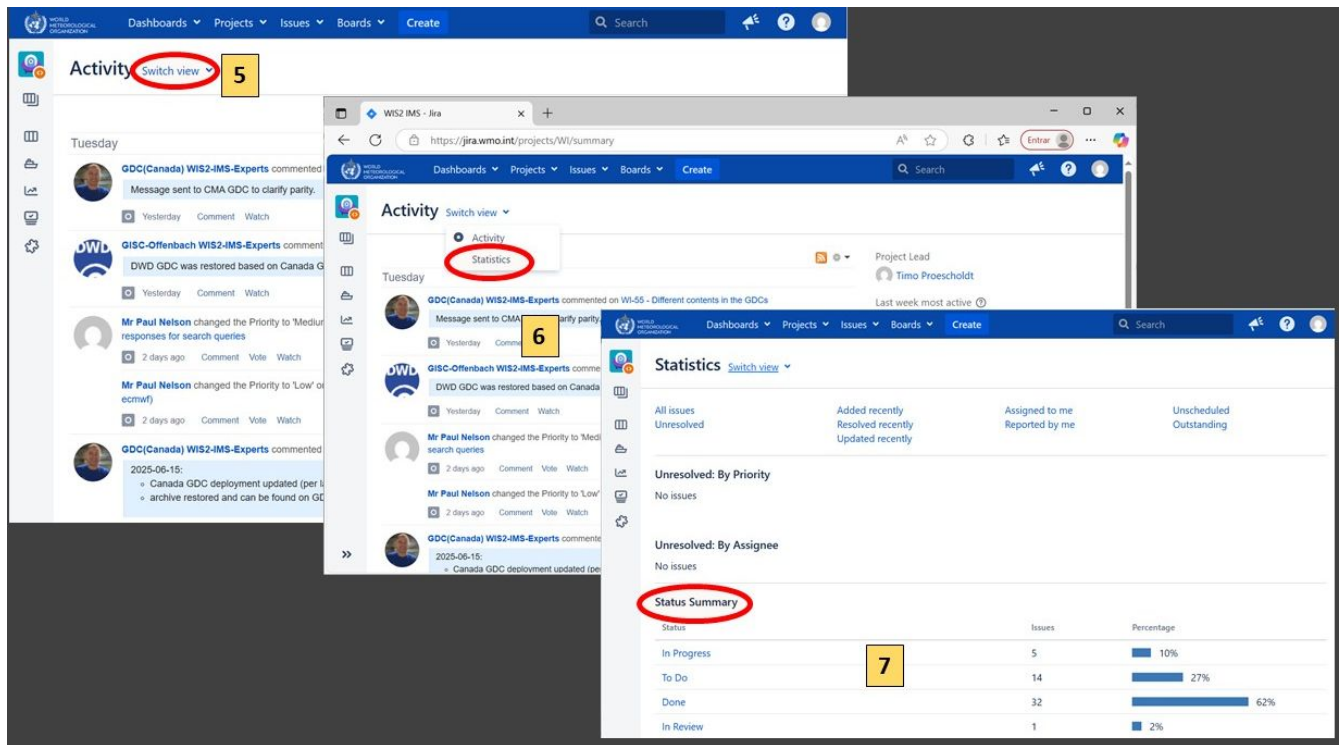

Table-1: Priority Levels

6.1. Incident Impact Levels and GISC Response Times

Level	Impact	Examples	Assigned GISC: Time to Respond	Assigned GISC: Time to Resolve
Very High	<ul style="list-style-type: none"> - Severe impact on one or more GISC operations - Immediate action required 	- Total failure of Global Services	ASAP / within 1 day	ASAP / within 1 week
High	<ul style="list-style-type: none"> - One or more essential services are unavailable - Action required within one week 	- Global Services are offline	Within 1 week	Within 1 month
Medium	<ul style="list-style-type: none"> - Essential services not affected - Response required, monitoring ongoing 	<ul style="list-style-type: none"> - Partial outage of a Global Service - Missing data from multiple WIS2Nodes simultaneously 	Within 1 week	Monthly progress updates
Low	Not to be used	—	—	—
None	Not to be used	—	—	—

Chapter 7. PART IV. Procedures for Handover

7.1. (a) Handover Process

1. The GISC currently on duty is responsible for sending the handover report to the next GISC in the roster.
2. If no confirmation is received:
 - The current GISC must follow up with a reminder.
 - GISC Watch duties must be maintained until the next GISC acknowledges receipt of the handover.
3. If there is still no response:
 - The GISC following the next one in the roster should be contacted to agree on a revised handover date.
 - The purpose is to ensure continuity by splitting the remaining period between the two GISCs if needed.

7.2. (b) Summary Handover Report

1. The handover report **formally transfers GISC Watch responsibilities** to the next GISC.
2. The report must be sent as follows:
 - **To:** the next GISC in the roster
 - **CC:** gisc-ops@groups.wmo.int, wis@wmo.int
3. The GISC Watch report to be completed is available [here](#)
 - **Note1:** The GISC Watch report is a consolidated report. Outgoing GISCs are responsible for adding the columns corresponding to the GISC Watch period.
 - **Note2:** Only the email addresses of the GISCs included in the mailing list gisc-ops@groups.wmo.int, which serves as the official channel for GISC Watch handover and takeover communications, have the access to edit this document as per the decisions at the [ET-WISOP 10th meeting](#).
 - **Note3:** For any changes of the email addresses, please contact the WMO Secretariat at wis@wmo.int.
4. A sample Handover email

Chapter 8. GISC WATCH REPORT EXAMPLE

From: GISC Toulouse
To: GISC Beijing
Cc: gisc-ops@groups.wmo.int, wis@wmo.int
Subject: GISC WATCH REPORT – 01-15 April 2025

GISC Toulouse has completed the GISC Watch duty for the period *1-15 April 2025*. Please find below the summary report for this period:

1. General Information

□ WIS2 to GTS gateway test conducted on *9 April 2025*

2. Global Services Status

□ [Provide a summary of the operational status, issues encountered, or actions taken during the watch period]

3. JIRA tickets activity:

□ Several ticket assignments from □TRIAGE□ performed

□ Duplicate tickets closed

□ Several stalled tickets reminders send

GISC Beijing: Would you please confirm the GISC Watch handover?

Best regards,

GISC Toulouse

Chapter 9. PART V. Procedure for Escalation

For any issue related to GISC Watch that requires escalation, the Chair of ET-WISOP is the first escalation point for all GISCs

Appendix 1: IMS-GISC Operator Manual

Chapter 10. 1. How to Login as External User

10.1. Step 1:

Access the login URL: <https://jira.wmo.int/secure/Dashboard.jspa>

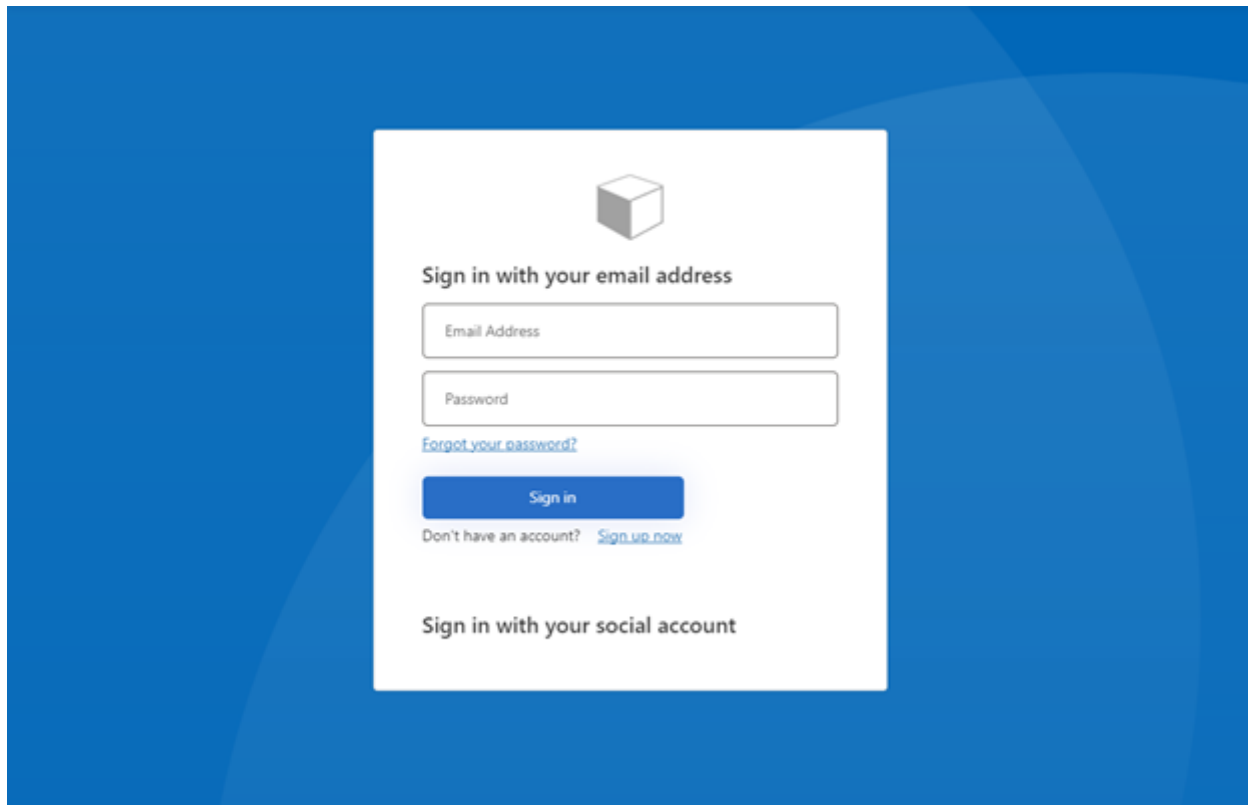

10.2. Step 2:

Click on the **External Users** button.

10.3. Step 3:

You will be redirected to the login page. Enter your email and password as registered in our database.

A login form is centered on a blue background with a subtle wave pattern. The form is white and contains a small 3D cube icon at the top. Below the icon, the text "Sign in with your email address" is displayed. There are two input fields: "Email Address" and "Password". Below the "Password" field is a link "Forgot your password?". A blue "Sign in" button is positioned below the links. At the bottom of the email login section, it says "Don't have an account? [Sign up now](#)". Below this, the text "Sign in with your social account" is visible.

Chapter 11. 2. How to Resolve an Issue

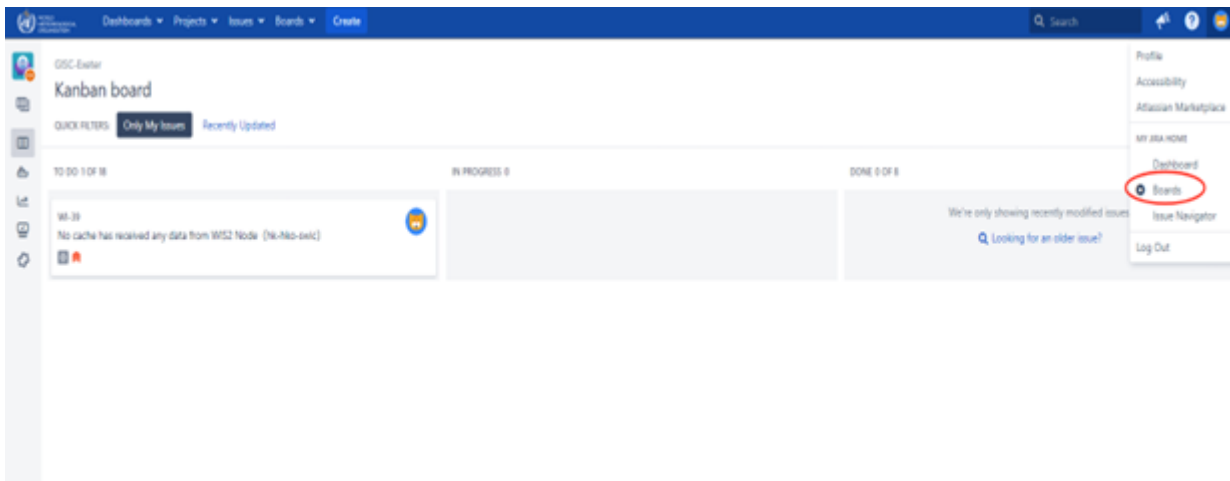

- **Note1** The GIS Watch on-duty may close tickets if the comments clearly indicate that the issue has been resolved. If the comments are unclear, lack evidence, or show no progress, the GIS Watch on-duty is responsible for following up with the assignee to verify the ticket's status.
- **Note2** The ticket reporter may close tickets once the issue has been resolved.
- **Note3** The assignee may close tickets once the issue has been resolved.
- **Note4** The WMO Secretariat may close the tickets if the comments clearly indicate the issue has been resolved.

11.1. Step 1:

After logging in, you may find the issues assigned to you.

You can also find your issues by navigating to: [User Profile](#) → [Boards](#) → [Only My Issues](#)

Alternatively, click on **Issues** in the top menu and select **My Open Issues** from the left panel.

11.2. Step 2:

The GISC Operator should: - Check the issue. - Assign it to the responsible person (e.g., HAN Xinqiang). - Set the issue status from **Triage** to **TO DO**.

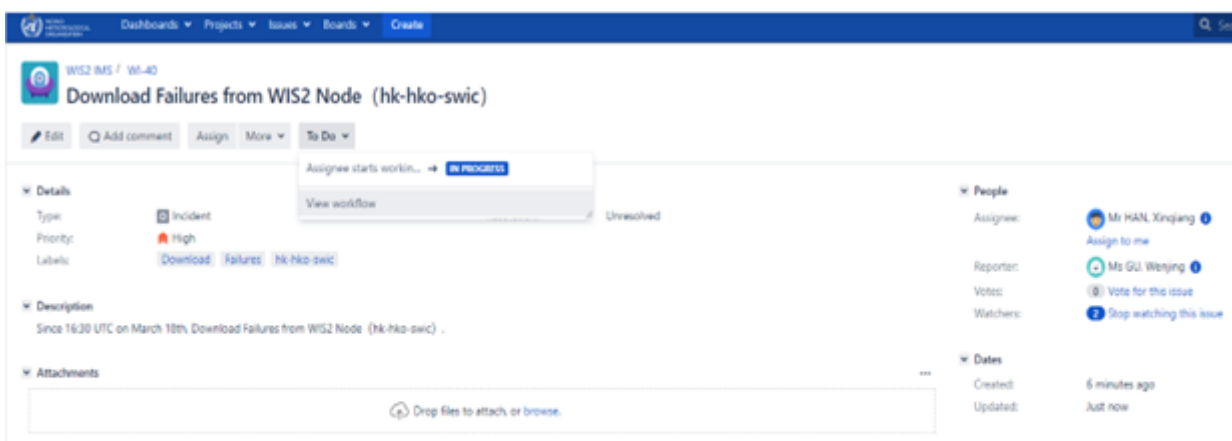

You can view the workflow by clicking on **View Workflow**.

11.3. Step 3:

The assignee (e.g., HAN Xinqiang) begins work on the issue and sets the status from **TO DO** to **IN PROGRESS**.

11.4. Step 4:

After addressing the issue, the assignee submits it for review: - Set the status from **IN PROGRESS** to **IN REVIEW**. - Assign the issue to the reviewer (e.g., XUE Lei).

The process history is visible in the comments below, along with Reporter, Assignee, Watchers, etc., on the right.

11.5. Step 5:

The reviewer (XUE Lei) reviews the issue, assigns it back to the original handler (e.g., HAN Xingqiang), and sets the status from **IN REVIEW** to **IN PROGRESS**.

11.6. Step 6:

The assignee receives the feedback, completes any follow-up, and sets the status from **IN PROGRESS** to **DONE**.

The issue is now successfully resolved.

Chapter 12. 3. How to Create an Issue

12.1. Step 1:

In the user interface, click **Create**, describe the problem in detail using graphics and/or text, set the **Priority**, and assign the issue to the relevant GISC.

The screenshot shows the 'Edit Issue : WI-46' form. The 'Summary' field is 'GC (Saudi Arabia) is not reflected in GM (China)'. The 'Issue Type' is 'Incident'. The 'Description' field contains the text: 'The metrics of GC (Saudi Arabia) can be accessed by: [https://wis2.ncm.gov.sa/cache/metrics/globalcache/gc_metrics.txt] Although the metrics appear to be collected incorrectly, they are currently not reflected in the GM (China). Could you please investigate this issue?'. The 'Priority' is 'Medium'. The 'Assignee' is 'GISC-Beijing WIS2-IMS-Expert'. The 'Attachment' field has a placeholder 'Drop files to attach, or browse.'. The 'Labels' field has a placeholder 'Begin typing to find and create labels or press down to select a suggested label.'. The 'Comment' field is empty. At the bottom right, there are 'Update' and 'Cancel' buttons.

12.2. Step 2:

Add a comment to further explain the issue.

From component wis2-gisc-GC, 5 out of 6 Global Caches are presented, missing GC (Saudi Arabia). In theory, GC (Saudi Arabia) should be in the drop-down list as well as the other 5 GCs.

12.3. Step 3:

Add a Due Date as needed

- **Note1** Reporter may add a Due Date when creating a ticket.
- **Note2** The GISC Watch on-duty may add a due date and update the ticket priority if none is set

35

or if the issues have been outstanding for some time.
